An updated version of Waves Platinum native plugin bundle is now available for download and installation at:
<https://support.waves.com/hc/en-us/articles/203811731-Waves-Platinum-Bundle-4-3>

This bundle contains the following plugins:

This bundle contains the following plugins:

"Plugins contained in the Platinum Masters collection are not interchangeable with those contained in Waves' regular Platinum Plugins collection. If you're looking for a plugin from Waves' regular Platinum Plugins collection, please go to www.waves.com/product_info.php?products_id=8381."

All plugins contained in this bundle are available as standalones and can be purchased at: https://www.waves.com/product_info.php?products_id=8385

It is recommended that users install this version of Waves Studio to get the latest versions of all plugins in the Platinum bundle. Waves Studio provides integrated access to all Waves plugins. It contains over 50 tools that are essential for audio post-production, mixing and mastering including award-winning plugins like L1 Ultramaximizer, multiple award-winning plugin SSL E Channel, Select Bus Compressors, Renaissance Reverb and Renaissance Vox. Many other audio effects are available via bundled plugins in the Platinum Mastering Collection. All plugins MIDI controlled - check user guide for details. Waves Platinum Plugin bundle allows you to activate the following products on your SoundGrid platform.

Platinum Plugins are no longer available on v4 or above of Waves SSL console. Please visit this link for more information:
